COSTUME REFERENCE LIBRARY

Republic Commando - Grunt

Model **Andy Thompson**, Photo by **Photographer**

Description: Republic Commando : Grunt
Prefix: RC
Detachment: Clone Trooper Detachment
Context: Star Wars: Republic Commando Game and Novels

Republic Commandos were uniquely trained to work in groups as one. The leader of Delta Squad, RC-1138 (Boss) rarely talks, except to give orders.

The 501st approval requirements are listed in black.

In the page below, items listed in blue are recommended features that will improve the quality of the costume. Items listed in red are intended to further enhance the finished costume.

For 501st membership only the requirements in black need to be met.

IMPORTANT: Effective June 1 2012, the 501st will no longer be approving realistic interpretations of Clone Wars CG characters. The armor sculpt must match the character being recreated. See this thread at clonetroopers.net for the differences between the sculpts.

This Visual Guide has been reviewed by the detachment staff and the LMO team and is certified for use as a minimum approval guideline for GMLs. GMLs are free to approve this costume type.

Required Costume Components

The following costume components must be present and appear as described below for approval .
