In the page below, items listed under "For level two certification" are recommended features that will greatly improve the quality of the costume. **These items are not required for 501st membership, but are highly recommended.** Items listed under "For level three certification" are some of the highest level accuracy features for those who strive to be screen accurate. **These items are also not required for 501st membership.**

Also note that these two additional "certification levels" **DO NOT** correspond to the Advanced Standards program of the Sith Lord Detachment, and you are encouraged to visit the [Sith Lord Detachment Forum](#) for more information.

For 501st membership, only the requirements in black need to be met.

This Visual Guide has been reviewed by the detachment staff and the LMO team and is certified for use as a minimum approval guideline for GMLs. GMLs are free to approve this costume type.

- Any uncertainties or questionable aspects of the submitted costume should be brought to the appropriate DL/GML peer review section of the legion forum.
